BUSINESS RANKERS WOMEN ACHIEVERS AWARD

After the success of the four editions of Women Achievers Award by Business Rankers Magazine, we are excited to launch the 5th edition of the Women Achievers Award 2021 scheduled to be held in the last week of December 2021.

The main objective of the event is to promote women achievers exclusively. The number of women who are taking up leadership roles in politics, social sectors, and businesses is increasing fast. Some of them have successfully ventured into entrepreneurship with aplomb as well.

The insights that we have garnered from the four editions of Women Achievers Award has convinced us that women need to be given special attention and their stories of success need to be recognized so that the Gennext gets inspired.

For this, we are planning to organize the “Business Rankers Women Achievers Award-2021” in December 2021, to recognize the invaluable contribution these women have made to the business ecosystem, social sector, and politics as well.

The award function will be preceded by a panel discussion on ‘Women Entrepreneurs Breaking New Ground’.

Through sheer hard work, dedication, persistent efforts, risk-taking ability, and overcoming the adverse social perception these women strive to surmount challenges and hurdles in their attempt to help thousands of people provide livelihood and social justice.

Business Rankers Women Achievers Award 2021 is a humble attempt to recognize the herculean efforts of such Alpha women.

Business Rankers is a magazine that caters to domestic and international audiences with its insightful articles and write-ups. The magazine strives to present an authentic picture of opportunities for industries with focus on MSMEs, perspectives and outlook for policy makers to shape government policies, investors to invest, professionals to stay updated and students to gain understanding and benefit from the economic growth.

Each edition of Business Rankers explores issues of the day with in-depth focus on the fields such as financial markets, current affairs, technology and economic scenario. More importantly, the publication seeks to tell the stories of successful entrepreneurs and businessmen who inspire GenNext for emulating their achievements. The magazine devotes its pages to the interests of business leaders, consumers, professionals and investors.
